EC1935:2004 & ISO846  
Certificate of compliance

**Filter type: ProSafe™ range**

Camfil certify that raw material selection for frame parts, frame potting, gasket and filter media are:

- in compliance with the health and safety requirements of the regulation (EC) N° 1935/2004 of the parliament and the council of 27 October 2004 on materials and articles intended to come into contact with food stuff including Directive No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food
- and in compliance with ISO 846 - evaluation of fungi and bacteria effect on polymeric materials and VDI 6022 in order to prove microbial growth inertia.

This certificate of compliance loses its validity if an unauthorised modification of our products is carried out.

On request, Camfil is able to show original documents from suppliers or Laboratories.
