

AIR PURIFIER/ISOLATION UNIT

Lower the Risks of Harmful Viruses and Pathogens

Clean Air.
A Human Right.

CamCleaner CC500

Designed with a true HEPA filter inside — factory tested to a minimum of 99.97% efficient — the versatile CamCleaner CC500 can be used as a portable air purifier or ducted negative air pressure system to protect patients, staff and visitors from airborne viruses, pathogens, and harmful particles.

The CC500's true HEPA filter combined with a 5-Star, MERV-9A prefilter help control the risks of harmful pollutants and contaminants in . . .
