

ADVANTAGES

- More media per filter compared to industry standard PTFE products
- Superior dust release when used on demanding applications
- Base media is chemically treated with a flame retardant
- High primary cartridge filtration efficiency - E-11
- Longer filter life on most challenging applications

Application	Applications where the EPA, OSHA or end users require higher efficiency media or demanding applications that require excellent dust release characteristics.
Type	Pleated Cylinder
Separator	HemiPleat Separator Technology
Pleat	HemiPleat
