

ADVANTAGES

- Able to be installed in any manufacturer's loose-fill filters
- ISO 10121-1:2014 tested media
- UL 900 classified for flammability
- Targets oxidizable acidic gases responsible for corrosion
- Ideal for formaldehyde
- Co-formed media ensures complete MnO4 impregnation of the media

| Comment | UL approved |
|-----------------------|--|
| Installation Options | All loose-fill molecular air filters. |
| Relative Humidity max | 40%-90% |
| Min Temperature (°C) | 10 |
| Max Temperature (°C) | 60 |
| Media | Impregnated Activated Alumina |
| Application | Corrosion control of electronic equipment in heavy process industries such as oil and gas, pulp and paper, mining and metal refining and waste water treatment. Any application for hydrogen sulfide and other oxidizable gases. |
