

Advantages

- Standard design for removal of acids, alkalines, organic smells and condensable organics.
- Compact solution with low pressure drop. Frame is also available in box type other than single / double header

Application: Remove of diverse gaseous contaminant

Type: Box Filter & Header Filter

Frame: Galvanised steel

RH. max: 30% - 70%

Frame: Galvanised steel (other on request). BH: Double Header, PH: Single Header, DH: Box Type

Media: Type 201: nonwoven fiber material with carbon for removal of organic smells and condensable organics. Type 202: nonwoven fiber material with impregnated carbon for removal of acids. Type 204: nonwoven fiber material with impregnated carbon for removal of alkalines

Recommended temperature: 0 - 40°C
