

Advantages

- Reduced waste through reusable housing
- Compact solution
- Exchangeable panels
- Up to 2 media types can be combined into the same filter
- High media cleanliness

Application: Clean room recirculation air and clean room make up air

Type: Box Filter

Frame: Stainless steel

Sealant: Polyurethane

Temperature max: 40° C

RH. max: 70%

Particle cleanliness: ISO Class 6

Gasket: Position: 01 - downstream, 10 - upstream

Configuration XPC: 2 layers of 8 panels / full size housing

Configuration XPB: 1 layer of 8 panels / full size housing

Outgassing: Individually outgassing tested for VOC emissions on request

Dimensions WxHxD (mm)	Air Flow/pressure drop (m ³ /h/Pa)	Weight (kg)
610x610x292	2600/95	28
