

## Advantages

- Low pressure drop
- Individually VOC outgassing tested
- High media cleanliness
- Multiple media types can be combined into the same filter

**Application:** Clean room recirculation air, clean room make up air

**Type:** Box Filter & Header Filter

**Frame:** Galvanised steel

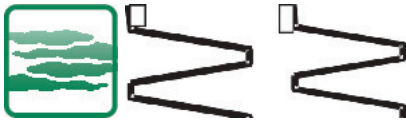

**Sealant:** Polyurethane

**Temperature max:** 10 - 40°C

**RH. max:** 30% - 70%

**Particle cleanliness:** ISO Class 6

**Outgassing:** Individually outgassing tested for VOC emissions

Dimensions WxHxD (mm)	Air Flow/pressure drop (m <sup>3</sup> /h/Pa)	Weight (kg)
592x592x292	3300/50	15
287x592x292	1600/50	10
592x592x292	3300/50	15
287x592x292	1600/50	10
592x592x292	3300/50	15
287x592x292	1600/50	10
592x592x292	3300/140	20
287x592x292	1600/140	12

*Other media combinations available on request*

*Pressure drop based on DH (Box type) frame*
